

Assignment 4

Vibe coding

AI Roast Generator

```
#include <iostream>

#include <vector>

#include <string>

#include <ctime>

#include <cstdlib>

using namespace std;

int main() {
```

```
srand(time(0));

string name;

cout << "Enter your name: ";

getline(cin, name);

vector<string> roasts = {

    "{name} writes code so slow that even
a turtle switched to Python.",

    "If procrastination were an Olympic
sport, {name} would already have a gold
medal.",
```

"{name}'s debugging style is basically
staring at the screen until the bug leaves.",

"{name}'s code runs so slowly that
even dial-up internet feels fast.",

"If laziness had a brand ambassador,
it would be {name}.",

"{name} doesn't debug code - they
negotiate with bugs.",

"The only thing {name} optimizes is
their lunch break.",

"{name} has a 'Coming Soon' sticker on
their finished projects.",

```
        "Error 404: {name}'s motivation not  
found.",
```

```
        "{name} thinks 'Git Push' is an  
exercise at the gym."
```

```
    };
```

```
    int index = rand() % roasts.size();
```

```
    string selectedRoast = roasts[index];
```

```
    size_t pos = selectedRoast.find("{name}");
```

```
    if (pos != string::npos) {
```

```

        selectedRoast.replace(pos, 6, name);

    }

    cout << "\nROAST: " << selectedRoast <<
endl;

    return 0;
}

```

Output

```

    string selectedRoast = roasts[index];
                                     ^
    * Terminal will be reused by tasks, press any key to close it.
    * Executing task: C:/Windows/System32/cmd.exe /d /c .\build\Debug\outDebug.exe

Enter your name: shivangi jha

ROAST: The only thing shivangi jha optimizes is their lunch break.
    * Terminal will be reused by tasks, press any key to close it.

```

Student Excuse Generator

```
#include <iostream>

#include <vector>

#include <string>

#include <ctime>

#include <cstdlib>

using namespace std;

int main() {

    srand(time(0));
```

```
string studentName;

cout << "Enter the student's name: ";

getline(cin, studentName);

vector<string> excuses = {

    "{name} couldn't finish the assignment
because the laptop decided to install updates
for six hours.",

    "{name} was about to complete the
homework when the Wi-Fi mysteriously
disappeared.",
```

"{name} tried finishing the assignment, but the computer keyboard suddenly stopped cooperating.",

"{name} couldn't complete the assignment because the laptop battery died unexpectedly.",

"{name} was ready to submit the assignment when the file mysteriously disappeared.",

"{name}'s dog decided the physics homework looked like a gourmet snack.",

"A sudden power outage sent {name}'s unsaved work into the digital void.",

```
        "{name} finished the work, but the  
cloud storage refused to sync.",
```

```
        "The cat sat on {name}'s keyboard and  
deleted the entire directory.",
```

```
        "{name} accidentally spilled coffee on  
the motherboard just before hitting save."
```

```
    };
```

```
    int randomIndex = rand() % excuses.size();
```

```
    string finalExcuse = excuses[randomIndex];
```

```
    size_t position =  
finalExcuse.find("{name}");  
  
    if (position != string::npos) {  
        finalExcuse.replace(position, 6,  
studentName);  
    }  
  
    cout << "\nGenerated Excuse:\n" <<  
finalExcuse << endl;  
  
    return 0;  
}
```

Output

```
string FindExcuse = excuses[randomIndex];
^
* Terminal will be reused by tasks, press any key to close it.
* Executing task: C:/Windows/System32/cmd.exe /d /c .\build\Debug\outDebug.exe
Enter the student's name: shivangi jha
Generated Excuse:
A sudden power outage sent shivangi jha's unsaved work into the digital void.
* Terminal will be reused by tasks, press any key to close it.
```
